Thanks Eva,

That would be great!

John

Hi John,

Although the original SWO came from EPA to the AF, EPA will not stand in the way of TerraTherm retrieving the rest of their equipment at this time. I'm sorry that TerraTherm got caught in the middle of this.

Last I talked to Gorm about it, he told me that they had been instructed by Amec to not discuss the project with anyone. I think we need to get that ban lifted –

Eva

Eva,

Hope all is well with you. I'm forwarding this as an FYI.

Best Regards, John

Dear Ms. Alvarado:

The attached letter concerns contractual compliance issues related to the above referenced contract.

The current situation represents a significant hard ship for TerraTherm. Therefore your earliest possible action would be appreciated.

Please contact me at any time to discuss this critical issue.

Regards, John Bierschenk
